CATERING

quality food using quality ingredients

Our Catering teams provides **5,000,000** meals a year. Following a recent audit by the Soil Association, **91%** of meals are freshly prepared on site.

We believe that offering nutritious and enjoyable food in a social environment improves behaviour, growth and the ability to concentrate – leading to happier, healthier children.

We have reduced the sugar in our biscuits, sponges and crumbles by 25% in accordance with Government guidelines.

We are able to cater for most food allergies and intolerances. The first point of contact will be your school and you will be required to provide medical confirmation of your child's diet from your doctor or dietician.

Our catering team create bespoke menus based on children's tastes and schools' needs. Please visit your school website for full menu details.
